Toshiba Corporation v. Lexar Media, Inc. No. C 03-00167, pending in the United States District Court Northern District of California, San Francisco Division.

On August 15, 2003, Lexar served its Corrected Patent Local Rule 3-3 and 3-4 Disclosures, on information belief, Lexar filed its originals Patent Local Rule 3-3 and 3-4 Disclosure on August 11, 2003. On pages 5-7 of that document Lexar identifies alleged prior art of the '697, '850, and '104 patents, which share a common disclosure with this application. Pages 17-21 contain prior art invalidity allegations as do Exhibits G, H, and I as to those patents. Pages 27-29 contain additional invalidity allegations.

In accordance with 37 C.F.R. §1.97, Applicant submits that based on reasonable inquiry the allegations of invalidity were not cited in communication from a foreign patent office in a counterpart foreign application and were not know to any individual designated in 37C. F.R. § 1.56(c) more than three months prior to the filing of this Information Disclosure Statement.

This submission does not represent that a search has been made or that no better art exists and does not constitute an admission that the attached document is material or constitute "prior art." If the Examiner applies the document as prior art against any claims in the application and Applicant determines that the attached document do not constitute "prior art" under United States law, Applicant reserves the right to present to the Office the relevant facts and law regarding the appropriate status of such document.

Applicant further reserves the right to take appropriate action to establish the patentability of the disclosed invention over the attached document, should the document be applied against the claims of the present application.
